Mr. L.P. Braxton
Administrator
Mineral Resource Development and Reclamation Program

Dear Mr. Braxton,

Attached is the Notice of Intent to Commence Mining Operations and Mining Reclamation Plan for our Knolls Solar Evaporation Pond System. I have discussed this with David Wham and I hope it thoroughly answers all of your questions.

This plan does not include gravel pits or the underground pipeline. These have been addressed in plans submitted to the BLM and Tooele County.

Your aid in processing this in a timely fashion is very much appreciated.

Please call if you have further questions.

W.L. Jackson
Manager, Laboratory and Environmental Affairs
